Railway Shares Decline in Wall Street Dealings.

A Firmer Tone Develops After the Opening Transactions, and Substantial Rallies Follow-Louisville and Nashville and Brooklyn Rapid Transit Comparatively Strong

NEW YORK, Jan. 4 .- Further substantial revivals were shown in the London stock market this morning, although there was again an utter absence of anything definite to account for the course of prices there. American stocks were shown in the early cabled advices at declines which extended to one point from yesterday's local closing.

The local market this morning again took its cue entirely from London. In the railway list declines which extended to one point, and which averaged about half as much, were common, while in American Tobacco and some of the specialties the

losses reached round figures. Trading was exceedingly active and well

present ten days ago.

After the initial dealings, a firmer tone developed, and a number of substantial railles were scored. Comparatively strong features of the market were Louisville and Nashville and Brooklyn Rapid Transit. The general uniformity of move-ments in prices rendered unnecessary any detailed account of the early dealings. London houses sold heavily in this market.

The market this morning was irregi with heavy selling in some quarters times, but perhaps with better buying the whole. The first hour saw prices of rapidly in Sugar and some of the of specialties and there were fractional los in the railway list generally. Later the was a revival which it was thought midevelop into a continuous of the unwester. was a revival which it was thought midevelop into a continuous of the upwer movement before the end of the day. I selling was largely for Loaden and Bellin accounts as it was pentenday, but the was also a continuance of the realizated of the short selling early in the defined for the market was that the decil would extend very little if any furth and that the closing process of the we are likely to show good advances. Yeste day's stories of the fall of Ladvanith a tant support is present in the whenever weakness is developed.

The acquisition of the New York Gas and Electric Heat and Power Company by the Consolidated Gas Company of New York is considered to be of the utmost importance by careful financial people who are familiar with the inner workings of the great battle recently waged between the Standard Oil people on the one side and the Whitney-Elkins-Widener syndicate on the other. The Standard Oil people have won, as it was believed they must two weeks or more ago. The prices of the syndicate securities on all sides tumbled many dollars a share, and their holdings were sold out at the bottom. It is to be supposed that the gentlemen are very much poorer for their fight. Sentimental people may be inclined to believe that the wrong crowd won, but it cannot be doubted that temporily at least the stock market will be far The acquisition of the New York Gas and rily at least the stock market will be far better off. The Gas war should be regarded as practically settled, the Rockefellers now being in control of pretty much everything in gas and electric light and heat and pow-er in the borough of Manhattan. But the Brooklyn Rapid Transit war is over also,

alleged the Standard Oil people have been argely responsible.

St. Paul's gross earnings for the fourth St. Paul's gross earnings for the fourth week of December show an increase of \$12,500. This brings the total gross increase for the month of December up to \$90,000 or more. The gain is the smallest for many months, and it seems entirely probable that no future month for a long time will make so small a showing. The rate schedule that went into effect on the first of the month will add heavily to the profits of all the granger lines as well as the Eastern trunk lines.

The Rock Island report for the month of November was also given out today. As usual it is several days behind those of usual it is several days behind those of the other granger lines. The figures of the report show that the Rock Island is about midway between St. Paul and Bur-lington, on the one hand, and Atchison on the other, as far as increases in gross and net earnings are concerned. The gross in-crease for the month was 166,898, and the net increase \$7,000. Rock Island was one of the strongest securities on the railway list this morning, selling around 107.

Sugar declined to 130 and a fraction be-fore 11 o'clock this morning, but later re-covered two points before noon, and seem-ed inclined to go higher.

The rumor is still current that Mr. De-pew, Mr. Harriman, and Mr. Mills will be elected to the hoard of directors of the Brooklyn Rapid Transit Company at the annual meeting.

Trading was exceedingly active and well diversified, and notwithstanding the severity of the early declines, the trading showed none of the feverishness that was present ten days ago.

After the initial dealings, a firmer tone developed united actions of strong support for the market.

Indirectly Caused the Death of the World's Greatest General.

It is a matter of history that Napoleon was a gourmand, an inordinate lover of the good things of the table, and history further records that his favorite dish was fried onlons; his death from cancer of stomach it is claimed also, was probably caused from his excessive induigence of this fondness for the odorous vegetable.

The onion is undoubtedly a wholesome article of food, in fact has many medicinal qualities of value, but it would be difficult to find a more indigestible article than fried onions, and to many people they are simply poison, but the onion does not stand alone in this respect. Any article of food that is not thoroughly digested becomes a source of disease and discomfort, whether it be fried onions or beef steak.

The reason why any wholesome food is not promptly digested is because the stomach lacks some important element of digestion; some stomachs lack peptone, others are deficient in gastric juice, still others lack Hydro chloric acid.

The one thing necessary to do in any case of poor digestion is to supply those elements of digestion which the stomach lacks, and nothing does this so thoroughly and safely as Stuart's Dyspepsia Tablets.

Dr. Richardson in writing a thesis on treatment of dyspepsia and indigestion, closes his remarks by saying, "for those suffering from acid dyspepsia, shown by sour, watery risings, or for flatulent dyspepsia shown by gas on stomach, causing heart trouble and difficult breathing, as well as for all other forms of stomach trouble, the safest treatment is to take one or two of Stuart's Dyspepsia Tablets after each meal. I advise them because they contain no harmful drugs, but are composed of valuable digestions, which act promptly upon the food caten. I never knew a case of indigestion can have no effect whatever in actively digesting the food, and to call any cathartic medicine a cure for indigestion is a misnomer.

Every druggist in the United States and Canada sells Stuart's Dyspepsia Tablets, a

Canada sells Stuart's Dyspepsia Tablets, and they are not only the safest and most successful but the most scientific of any treatment for Indigestion and stomach troubles.

THINGS THEATRICAL.

Probably no musical comedy produced in a decade boasts a greater number of melodies that have been whistled until they are generally known than does "A Runaway Giri," which is to be presented next week at the Columbia. The march song, 'Soldiers in the Park," more frequently called "Oh, Listen to the Band," is chief among these, while the topical song, "The Boy Guessed Right the Very First Time, is not far behind. There is a rhythm to 'Society" and to "Follow the Man from Cook's' that is irresistible, while James T Power's "Courier" ballad has been p ayed by orchestras, street planos, and hand-or-game ever since the New York production of the "Girl." There are other pleasing airs in the work, which will-be fattepreted here by what promises to be an exellent here by what promises to be an excellent
